

# Python Innovation Hackathon

This certifies that **Marvin Sorgatz** successfully completed Masterschool's Python Hackathon, applying skills in software development, collaboration, and communication.

Throughout this intensive program, participants gained hands-on experience in:

**Problem Solving & Design:** From ideation and brainstorming to product planning.

**Project Planning:** Structuring milestones and collaborating with teammates.

**Python Development:** Building functional applications with API integration

**Presentation:** Communicating ideas and applying feedback.

The program strengthened teamwork, technical, and communication skills for real-world development environments.

Date of Issuance: 25 September 2025
